

# They can't call home.

*But with your help, someone can.*

Every year, 1 out of every 3 pets goes missing.

90% of them never make it back home.

As we mark the 6th anniversary of the storms which shattered our state and caused so many animals to be displaced, Marshall County Animal Control invites you to participate in a "Chipathon." Call any of the participating locations shown here to schedule an appointment during the month of April to have your pet microchipped.
